FAMILIES

# MCRAE ENTERPRISES LEND A HELPING HAND

With the help of McRae Enterprises, the children that are currently residing at the Center for Women and Families in Floyd County have a safe place to play as we go into spring.

McRae Enterprises recently helped the Center for Women & Families secure a commercial playground! They helped find additional discounts which allowed the organization to purchase the large, commercial grade playground set for what they received in grant money.

**But McRae Enterprises did much more than that.** They helped by receiving the playground kit, transporting it to the site, assembling it and anchoring it. The new playground has two elevated platforms with roofs, a tunnel, two slides and a vine climber!

McRae Enterprises was glad to have the opportunity to help this organization and its residents.
